

# Disc Arm Grinder 2.0

The Disc Arm Grinder 2.0 is the most versatile entry-level model from VG Machines. With this affordable semi-automatic deburring and finishing machine, you are up to 4 times faster than with a manual approach! Minimum effort is rewarded with the highest quality finish. The mobile and compact set-up with the 180° rotating grinding head ensures a quick and easy switch between different processing steps. In short, the ergonomic and cost-saving alternative to manual deburring, edge rounding and/ or finishing of metal!

- ⚡ The Disc Arm Grinder 2.0 comes standard with integrated vacuum. Optionally, 2 electro-magnets can be added to hold small ferrous parts.
- ⚡ The standard equipment on the machine is a deburring disc and an edge rounding brush. Optionally, a starter kit can be obtained to machine different materials.
